About me

Highly motivated Frontend Designer with a passion for continuous learning and self-improvement. I approach design with a user-centered mindset, aiming to create interfaces that seamlessly blend aesthetics and functionality for an exceptional user experience.

Skills

Frontend Technologies: HTML, CSS, JavaScript and UI & UX.

Tools & Frameworks: Bootstrap, Tailwinds CSS, Figma, Figma(for Design collaboration).

Version Control: Git, GitHub.

Experience

Professional Experience

Frontend Designer | Momas Electricity Meter Manufacturing Company(MEMMCOL)

Software Engineer Intern

Date Range (January 2024 – November 2024)

During my intern, I worked as a Frontend Designer at MOMAS Electricity Meters Manufacturing Company(MEMMCOL), where I contributed to the design and development of user interfaces for the company's digital platforms. My role focused on creating engaging, user-friendly, and responsive web applications while ensuring a seamless user experience.

Key Responsibilities and Contributions:

UI/UX Design and Implementation:

Designed and implemented responsive web pages that adhered to modern design principles and ensured compatibility across various devices and browsers.

Collaboration with Teams:

Worked closely with backend developers and the design team to align frontend implementations with overall project requirements and business goals.

Optimized User Experience:

Conducted usability testing and gathered feedback to improve the functionality and aesthetic appeal of applications.

Continuous Learning and Skill Development:

Explored new tools and frameworks, such as React and Bootstrap, to stay updated with industry trends and improve efficiency.
